

# Crimes Against Women in India

## Conclusion:

Andhra Pradesh recorded the highest number of crimes against women in India, with 483,568 cases reported during 2001–2014. The primary type of crime, **cruelty**, is also a national issue. Trends show an annual increase of 5–7%, highlighting the urgent need for comprehensive policy intervention. My recommendations include **community education programs, strengthening law enforcement, and analyzing socio-economic factors to address the root causes.**
